## Education

---

Indira College Of Engineering And Management Pune  
T.E. in Computer Engineering

Dec 2024 - Present

## Skills

---

### Technical Skills

- **Languages**

Java (Beginner)  
HTML, CSS (Advanced)  
JavaScript (Advanced)  
React (Beginner)

- **Database**

MySQL

- **Others**

Data Structures and Algorithms (Beginner)

### Soft Skills

- Problem Solving
- Time Management

---

## Project

- **[Input Output Form Using React](#)**

Create a simple form to get input from the user, such as their name, email, some text. Use HTML CSS and JavaScript with React to capture the input and dynamically display it on the webpage. This provides an interactive way to engage with users and see their input reflected in real time.

- **[Dice Game Using React](#)**

Developed an interactive Dice Game web application using HTML, CSS, JavaScript, and React. Utilized React features like state management and component-based architecture for dynamic gameplay and seamless user experience. The application includes responsive design and real-time dice rolling animations for enhanced interactivity.

---

## Trainings and Workshops

- Online Web Development Training, Intershala Trainings (6 weeks - Ongoing)

---

## Hobbies and Interests

- Web Development
- Playing ground games
- Photography
